

# Nonsense Path

by Jim Gold

Where does the Nonsense Road lead? No one knows. But it calls me. Doors can open through the unexpurgated writing of nonsense. But walking the irrational Nonsense Path cannot be a goal. Goals destroy the path by making sense. Nonsense travels concealed in darkness; it is often the way of disaster, dynamite, and the devil.

But the road leads to Luminescent Land, where nonsense brightens the day! A walk on it can't be planned. Best is to unleash the mind. Let it wander the fields and hills, unearth secret turnips, ostrich eggs, phosphorescent worms, and rocks pitted with gold.

The Nonsense Path often reveals hidden plans behind the world's apparitions.
